

(16) Development of a Regional Hydrogen Technology Education Consortium (HyTEC)

This three-year effort led by a consortium of four universities from four states will provide education and training for students, professionals, and the public. The consortium will establish centers at each university, develop courses, workshops, establish a quarterly electronic newsletter, and develop and disseminate K - 12 outreach materials.

Project lead: North Carolina A&T State University Center for Energy Research & Training

Project participants: University of South Carolina; University of Florida; University of Georgia
