

**(16) Development of a Regional Hydrogen Technology Education Consortium (HyTEC)**

This three-year effort led by a consortium of four universities from four states will provide education and training for students, professionals, and the public. The consortium will establish centers at each university, develop courses, workshops, establish a quarterly electronic newsletter, and develop and disseminate K - 12 outreach materials.

Project lead: North Carolina A&T State University Center for Energy Research & Training

Project participants: University of South Carolina; University of Florida; University of Georgia

Presentations/Publications

None.

Progress in Past Quarter and Current Status

This quarterly report covers the period ending December 31, 2005. As we reported in the previous report, unless we have new funding, HyTEC activity will remain dormant. Not much to report in this quarter.
